Brief Product Description

ZootTube is an interactive tool that allows you to edit the visibility of individual videos and entire playlists on your Google linked Youtube account.

Features

View and edit your playlists/videos

Within Zoot Tube you can view and edit playlist/video visibility through the task scheduler.

Task Scheduler

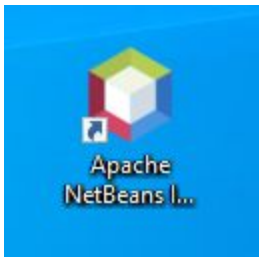

In the Task Scheduler you can change the visibility of videos/playlists in several ways:

- Run the task immediately
- Run the task at a later date/time
- Store multiple tasks to be ran immediately or at later dates/times

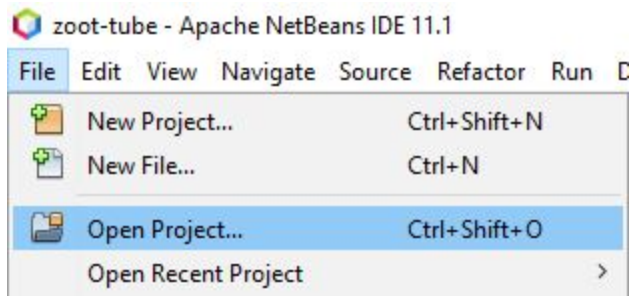

Instructions to use Zoot Tube

How to launch Zoot Tube:

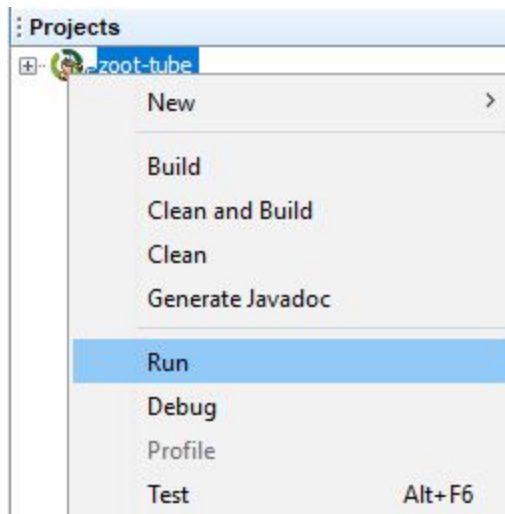

1. Open your favorite IDE
 - We used NetBeans 11.1 for this example

2. Open the Zoot Tube Project from your installation directory

3. Right-Click the Zoot-Tube Project and Left-Click Run

How to Sign In to Zoot Tube:

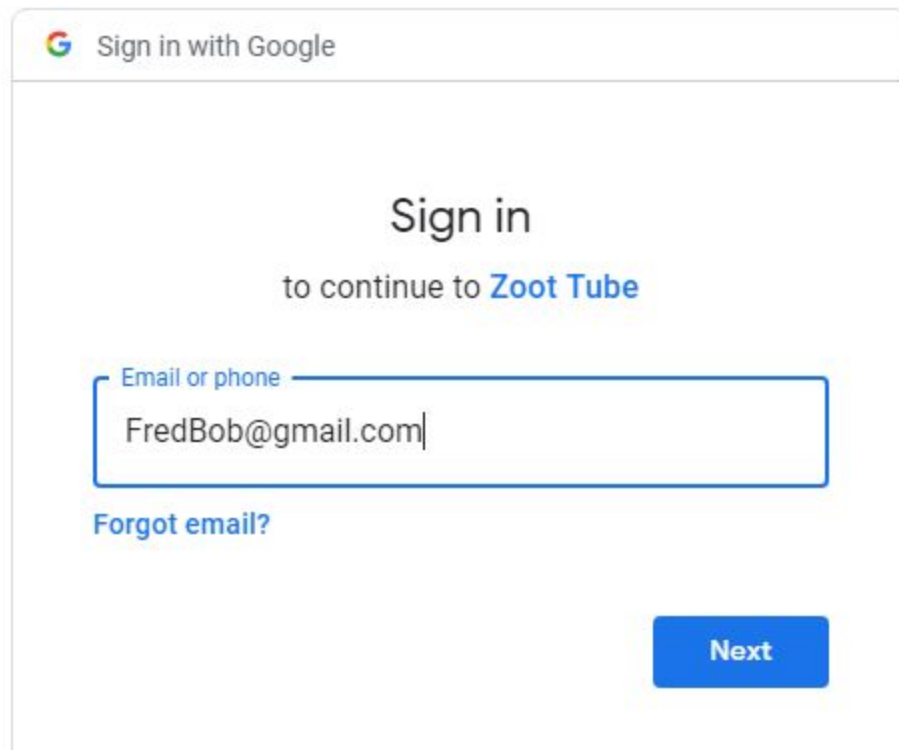

1. Click the "Sign in" Button

2. Select the Account you wish to sign in with or use another account

3. Enter the email address associated with your Google Account and Left-Click "Next"

A screenshot of the "Sign in with Google" interface. At the top, it says "Sign in with Google" next to the Google logo. Below that, it says "Sign in to continue to Zoot Tube". There is a text input field labeled "Email or phone" containing the text "FredBob@gmail.com". Below the input field is a link that says "Forgot email?". At the bottom right is a blue button labeled "Next".

4. Enter the password associated with your Google Account and Left-Click "Next"

A screenshot of the "Enter your password" form. It features a text input field labeled "Enter your password" filled with dots. To the right of the input field is an eye icon. Below the input field is a link that says "Forgot password?". At the bottom right is a blue button labeled "Next".

5. Close out of the resulting window and you're signed in!

How to Sign Out of Zoot Tube:

Left-Click "Sign Out" in the Zoot Tube Homepage

Sign Out

How to store and run a task immediately:

1. Left-Click "Get My Playlists"

Get My Playlists

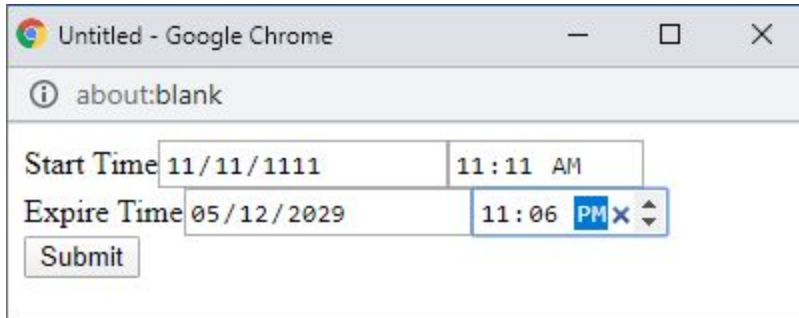

2. Select the Playlist you wish to edit

☒ testPlaylist3
☐ testPlaylist2
☐ Test Playlist
 Click Me!

2. Left-Click "Click Me!"

Click Me!

3. Enter the date/time to an earlier date/time than your current date/time

The screenshot shows a Google Chrome window titled 'Untitled - Google Chrome'. The address bar displays 'about:blank'. The form contains two rows of input fields. The first row is labeled 'Start Time' and has a date field containing '11/11/1111' and a time field containing '11:11 AM'. The second row is labeled 'Expire Time' and has a date field containing '05/12/2029' and a time field containing '11:06 PM'. A 'Submit' button is located below the 'Expire Time' fields.

Start Time	11/11/1111	11:11 AM
Expire Time	05/12/2029	11:06 PM

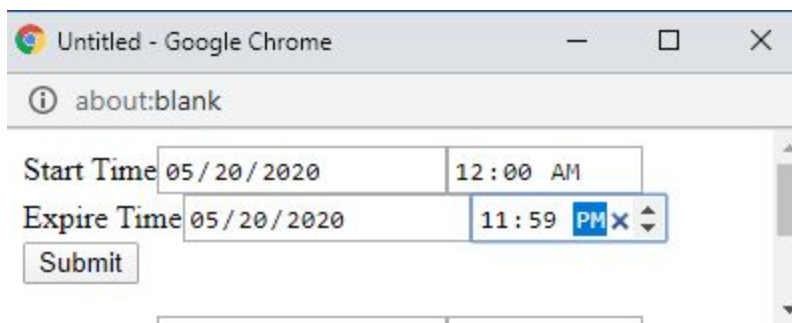

Submit

4. Left-Click Submit

Submit

How to store and run a task at a later time:

1. Follow the steps from "To store and run a task immediately:" up to step 3
2. Enter the date/time to a later date/time than your current date/time

The screenshot shows a web browser window titled "Untitled - Google Chrome" with the address bar displaying "about:blank". Below the address bar, there is a form with two rows of input fields. The first row is labeled "Start Time" and contains a date field with the value "05/20/2020" and a time field with the value "12:00 AM". The second row is labeled "Expire Time" and contains a date field with the value "05/20/2020" and a time field with the value "11:59 PM". The time field for "Expire Time" has a blue "PM" button and a close button "X". Below the input fields is a "Submit" button.

Start Time	05/20/2020	12:00 AM
Expire Time	05/20/2020	11:59 PM X

Submit

To store and run multiple tasks; follow the steps above for each task you wish to schedule.

How to close Zoot Tube:

1. Close out of all Zoot-Tube Tabs

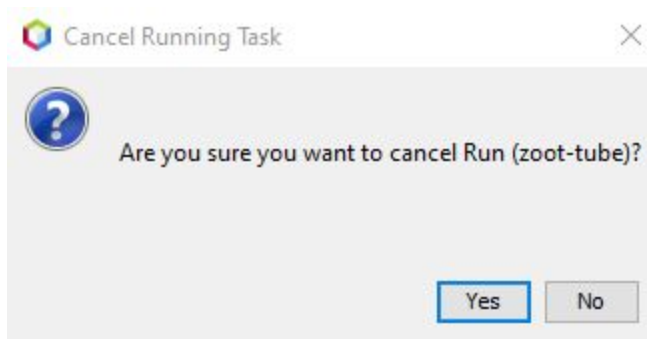

2. End the Process within your IDE

- Left-Click the "X" next to your Running Process

- Left-Click "Yes" to end the Process

3. Close your IDE
