

Bugs recorded in this project:

- Click out of time window and click submit again: time window pops back up with previous entry AND creates new one
- "Get my playlists" appears before you're logged in
- Clicking "Get my playlists" before logging in is broken
- Can schedule videos back in time: effective as of this moment
- Nothing is reset after signout- can still schedule playlists
- Sign in -> Sign Out -> Sign In Button-> EXIT OUT OF SIGN IN WINDOW
-> it breaks
